

FCC

Please keep free speech free concerning 04-233 proceeding. The new regulations being considered would greatly affect the Christian radio community and the way the stations operate. These stations are supported totally by contributions of the listeners. The stations could not support the increase in additional monthly expenses. The content of what they say on air from a spiritual aspect should not be jeopardized. I am one of those listeners who would desperately miss Christian radio since I do not listen to secular music by choice.

Your consideration is greatly appreciated.
